How to Protect Your Debit and Credit Card Against Fraud

3 Easy Tips

Debit Card – When paying, choose to sign instead of using your PIN. The merchant terminal will ask if your card is debit or credit, so select credit. The transaction will still go through to your checking account. The key is not to use your PIN if someone could possibly get that information and use it with your debit card number to get money at an ATM or online transaction.

Credit Card – Don't give your account number to anyone on the phone unless you've made the call to a company you know to be reputable. If you've never done business with them before, do an online search first for reviews or complaints.

Both Cards – Always check account online during the month and review your monthly statements. Be diligent! Watching your account activity can help you find any fraudulent activity and allow you to quickly call the credit union to report it. Contact the credit union at **520-381-3100** if you have any questions!
