Pop Money

Pop Cash to your friends, family, co-workers or anyone you owe.

You only need the person's name and email address or mobile phone number. You can even include a message with your payment such as "Great Movie, Enjoyed getting together"

You're charged a small fee for each payment, and there is a limit on how much money you can send in each payment. The fee and payment limit appear near the Amount field.

To send money:

1. From within the mobile app, click Payments. If this is your first time using Pop Money, read the welcome message and click continue.
2. Click Pay other People, then click Send Money
3. In the Send Money section of the page, select the person you want to send money to.
    a. If you've sent money to this person before, select the person from your list. His personal information is entered into the form for you.
    b. If you are sending money to a person for the first time, enter his information in the form (this person will be in your list the next time you send him money)
4. Enter the amount you want to send. Note the fee that will be charged for sending this payment, as well as the maximum amount you are allowed to send.
5. In Pay From, select the account from which to withdraw the money you send. Your preferred account is selected by default, but you can select any account that has check-writing privileges.
6. Include a message if needed. For example, "Thanks for the tickets" or "Here's my half of lunch from yesterday"
7. Click Preview Payment
8. Review the payment details and click Send Money. The person receives notification (either e-mail or text message) of your payment.

Restrictions on Sending Money

Pop Money is not available in all states yet. If you live in a state where Pop Money is not available, you won't be able to send money. However, you can still receive money. If you move to another state, be sure to update your address information.
